Investment Success Chess for Beginners

Introduction and Background

Playing Objective of the Beginner's Game

Object of the Game is to be the best investor by having the most money at the end of the game.

NOTE : Investment Success Chess is played on either a :

- **Chess Board with an opposing Investor at opposite the end OR**
- **a specially designed ADVANCED Investment Success Chess Game Board for teams of 4 (four).**

The design of the ADVANCED version game board, and the rules for playing, can be purchased from Kinematic for AUS\$16.50* by emailing leigh@kinematic.com.au AND requesting the Advanced-ISC game board and rules.

* Price correct at the time of this publication.

Purpose of the Game

The purpose of the game is to gain an insight into the risks associated with different investment types and options.

Kinematic's Business Games

Investment Success Chess is one of Kinematic's Games which also comes in a BUSINESS VERSION. The Business Version can also be customised for workplace settings to meet the specific needs of your organisations, management or executive team.

Investment Success Chess for Beginners

Playing the Beginner's Investment Success Game

Introduction to Playing the Game

The following explanation tells you how to set-up the board and arrange basic moves for the "Play at Home" version of Investment Success Chess involving two players/teams.

Step 1: Building Your Investment Capability (IC)

Each Player builds his/her Investment Capability (IC) using the following guidelines.

Roll two dice. Multiply the number you get by \$ 200 000. This is how much money you have for your IC.

With the money you have available, using the cost of pieces on page 5 (see below), select the pieces you want and place them on the Board in the same positions as for normal Chess.

Remember to mark Bishops, Knights and Rooks as either 1 OR 2 or use a label from the table on page 5.

Step 2: Playing the Game

Each Player takes turns to move their pieces as for normal Chess. Every time a "Investment" advances, that player puts \$20 000 into his/her bank account.

Opposition Investor pieces can be taken in the same way as for ordinary Chess.

Rules of the Beginner's version of Investment Success Chess

Players must track how much money they spend and acquire.

A Player may "sacrifice" a turn (i.e. not move) and buy a replacement piece if she/he has sufficient money in the bank.

A player cannot buy any new pieces if she/he has no investments (pawns).

Winning the Game

A player wins when she/he buys the opposition Investment Manager – King – with by placing the King in "Check" as for normal Chess but having more money than the opposition investor at the time of "Check".

Investment Success Chess for Beginners

Investment Success Chess Beginner's Pieces

CC for Beginners Creator: Dr. Leigh Kibby

Dr. Kibby, known as “Dr. Leigh,” is one of the world’s truly creative geniuses having:

- founded the Noetic Psychology movement
- developed numerous new paradigms such as:
 - the Sustainability Triangle (Psychology-Sociology-Ecology),
 - L.E.T. (Language-Emotion-Thought) framework,
 - Affective-Cognitive Integration Model (the NEW Emotional Intelligence),
 - “The Intelligence of Emotions” and
 - Psychological Genome concept.

He is also of one of Australia’s leading trainers having taught Noetic techniques to over 2500 people including General Practitioners (Family Physicians), Police, teachers, youth workers and the Investment Success sector.

Dr. Leigh also devised some of the most successful development programs for the unemployed - Empower Plan and Making the Change. His Paradigm Shift seminar has been described by senior executives as the most personally profound and professionally uplifting programs they have attended in their entire careers.

Other Games by Dr. Kibby include:

- Take- 2
- The Destiny Game
- Spellcheck
- The Money Game
- Snap PLUS.
