Small Business with Spouse Success Chess for Beginners

Playing the SBS Beginner's Game

Introduction to Playing the Game

The following explanation tells you how to set-up the board and arrange basic moves for the "Play at Home" version of Small Business with Spouse Success Chess involving two players/teams.

Choosing How to Play

To get the most from the game, you need to play against someone who knows you well – a close/intimate partner OR Mentor OR Small Business Coach/Consultant.

You and Your Spouse play the WHITE pieces and your opponent is your "competitor" and plays the black pieces.

Remember, in the advanced version you play against your spouse!

Step 1: Building Your Small Business

Each Player builds his/her Small Business using the following guidelines.

Your or Your Spouse Roll two dice. Multiply the number you get by \$ 100 000. This is how much money you have for building your Small Business.

Your Competitor Rolls two dice. That Competitor multiplies the number by \$ 200 000. This is how much money you have for building your Small Business.

With the money you have available, using the cost of pieces on page 5 (see below), select the pieces you want and place them on the Board in the same positions as for normal Chess.

Remember to mark Bishops, Knights and Rooks as either 1 OR 2 or use a label from the table on page 5.

Step 2: Playing the Game

Each Player (you and your Spouse are ONE Player and your Competitor is the other) takes turns to move their pieces as for normal Chess. Every time a "Shopfront" advances, that player puts \$5 000 into his/her bank account.

Opposition Small Business pieces can be taken in the same way as for ordinary Chess.

Rules of the Beginner's version of Small Business Chess

Players must track how much money they spend and acquire.

A Player may “sacrifice” a turn (i.e. not move) and buy a replacement piece if she/he has sufficient Cash in the Bank i.e. Queen.

A player cannot buy any new pieces if she/he has no Cash in the bank i.e. Queen.

If a Small Business has NO Accountant, then “Shopfronts” can only move to take an opposition business “Shopfront” if it comes within one square of a player’s Shopfront.

If a Small Business has NO Sales and Marketing System, then “Shopfronts” CANNOT MOVE.

Winning the Game

A player wins when she/he captures the opposition Small Business’s Owner.

Getting Benefit from the Game

USE THE OBSERVATION GUIDE TO LEARN WHAT WORKS AND WHAT DOES NOT NOTING:

The Objective of the Game

The idea is for the white player to win by defeating his/her “competitor” and discover: for himself/herself what capabilities are needed for Small Business with Spouse Success and what behaviours and personal beliefs prevent Small Business with Spouse Success.

Winning the Game

A player wins when she/he captures the opposition Soul - King.
